

Assignment No. 2

Design and develop the front-end of the specified web application.

Demonstrate proficiency in Figma for UI/UX design and HTML/CSS for front-end development.

Deliverables:

1. Figma Design File:

- Create a comprehensive Figma design file containing:
 - User flows (if applicable)
 - Wireframes
 - High-fidelity mockups of all key screens (e.g., homepage, product pages, user profiles, login/signup forms)
 - Design system (colors, typography, spacing, components)
- Ensure the design is user-friendly, visually appealing, and responsive across different devices (desktop, tablet, mobile).

2. HTML/CSS Implementation:

- Convert the Figma design into functional HTML, CSS (and optionally JavaScript for basic interactivity).
- Implement key features and interactions as per the Figma design.
- Ensure the website is responsive and cross-browser compatible.

Submission:

- Submit both the Figma design file and the completed HTML/CSS code (zipped together) via google form link by Tuesday 31-12-2024.
